

## STUDENT OPPORTUNITIES

## GIS Applications and Research Scholarship

Carolina's Chapter of Geospatial Information & Technology Association (CGITA) is offering a scholarship to encourage and support students whose educational focus is on Geographic Information Systems (GIS) / Geospatial Information Technology.

The Carolina GITA Chapter makes awards annually, providing financial assistance in the form of \$1,000 scholarship to students currently enrolled in an undergraduate or graduate program in Geospatial Studies in a North or South Carolina University or College. For more information or to apply contact: Connie Banegas at [banegascl@charlestoncpw.com](mailto:banegascl@charlestoncpw.com) or visit our Chapter website <http://gita.org/chapters/carolina/carolina.asp>. The application deadline for the 2010 spring semester is November 1, 2009.

## GITA Student Chapter

The purpose of the Geospatial Information & Technology Association (GITA) is to promote and advance the use of geospatial information and technology through education, information exchange, research and advocacy.

Increasing student involvement for CGITA is a great way to increase the attendance and awareness of geospatial trends at Carolina conferences & workshops and in the profession. If you would like to start a student chapter at a community college or university in your area please let a CGITA board member know and we will send you the information.

Carolina GITA would like to help you start a student chapter at your school or university.
